

### Object of the Game

Found, grow, and merge hotel chains, buy shares of stock in them, and leverage your portfolio of stocks to earn money. The player with the most money at the end of the game wins.

### Placing a Tile

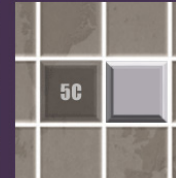

Each turn, you must place one of the tiles from your hand on the game board.

You can click the tile's square on the game board . . .

. . . or click the tile in your hand to place it.

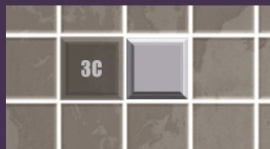

Found or grow a hotel chain by placing a tile side-by-side with another tile.

### Placing a Tile

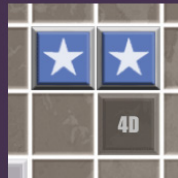

Merge two existing chains by placing a tile that connects them.

### Founding & Growing a Hotel Chain

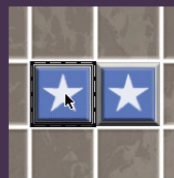

Found a new hotel chain by placing a tile side-by-side with an unmarked tile on the game board. Choose which chain you wish to found by clicking its logo. You get a free share of stock in that chain for founding it.

Grow a hotel chain by placing a tile side-by-side with a tile in that chain. As a chain grows, its stock becomes more valuable.

### Buying Shares

Next, you may buy up to three shares of stock.

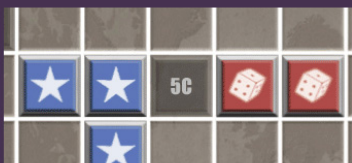

Click to choose a share.  
Click if you change your mind.  
Click to buy your chosen shares, draw a new tile, and end your turn.

### Merging Hotel Chains

When chains merge, the largest and second-largest shareholders in the smaller chain get a cash bonus. Then each shareholder in the smaller chain chooses what to do with his or her stock:

- sell them for their current value
- trade them for shares of the larger chain at a rate of two for one
- keep them in case that chain is founded again later

### Merging Hotel Chains

Click and to choose how many shares you'd like to sell, trade, or keep. Click when you're done choosing.

Hotel chains with more than ten tiles are safe. They can't merge with other hotel chains.

### Ending the Game

You can choose to end the game if either:

- all hotel chains in play are safe
- a chain has more than forty tiles

When the game ends, the largest and second-largest shareholders in each chain get a cash bonus. Then, each player's shares are sold to the bank for their current value.

The player with the most money wins.
